Available Adults

last updated 4/30/06

Topaz (Suka/Grizz) is a beautiful golden sable plush, looking for a forever home. She is a girl that would do best on an all adult home as she was not raised with children. She has a stronger temperament and needs an experienced, firm consistent handler. She is a very loving and affectionate dog, has a zest for life, and will make the right person a great companion. Topaz is four years old and has been retired from the breeding program. She is crated trained and has started in very basic obedience. [Contact me](#) for more information.

Angel (Ursa/Angus) is a gorgeous plush white female, with a sweet submissive temperament. She is looking for a good home to call her own. It was discovered that Angel had a slight heart murmur and will not be used for our breeding program. She has been examined by two vets and they are in agreement that her problem will not affect her as a house pet. She will make a striking companion dog. [Contact me](#) for more information.
